Flora Concept site map: document for the development team

Version 06/10/2026. Structure **approved by the client on 06/10/2026**. This document replaces the "Arborescence" section of the 01/10/2026 delivery: 6 outdoor PACA pages were added. Technical requirements are unchanged, see `DEV-REQUIREMENTS.md` (EN) / `CAHIER-EXIGENCES-DEV.md` (FR). The site is in French: URLs, labels and all visitor-facing strings below are final and must be used exactly as written.

1. Full site map (27 pages)

```

Every URL ends with `/`. Slugs have no accents and are final as listed. Every legacy URL from floraconcept.com and vegetaloffice.fr gets a 301 to one of these pages (`REDIRECTIONS.md`).

2. Page by page

Status: **delivered** = full content available in `contenu/`; **pending** = content being written, delivered progressively (the template can be built now, it is identical to the delivered pages of the same family).

2a. Home and hubs

URL	Template	Content file	Area (`areaServed`)	Status
`/`	Home	`contenu/01-accueil.md`	PACA + IDF	delivered
`/paysagisme-interieur/`	Hub	`contenu/02-paysagisme-interieur.md`	PACA + IDF	delivered
`/espaces-verts-entreprise/`	Hub	`contenu/18-espaces-verts.md`	PACA	pending

2b. Indoor services (parent: `/paysagisme-interieur/`)

URL	Template	Content file	Area	Status
`/location-plantes-bureau/`	Service	`contenu/03-location-plantes-bureau.md`	PACA + IDF	delivered
`/entretien-plantes-entreprise/`	Service	`contenu/04-entretien-plantes-entreprise.md`	PACA + IDF	delivered
`/mur-vegetal-interieur/`	Service	`contenu/05-mur-vegetal-interieur.md`	PACA + IDF	delivered
`/cadres-vegetaux-plantes-stabilisees/`	Service	`contenu/06-cadres-vegetaux-stabilises.md`	PACA + IDF	delivered
`/abonnement-fleurs-entreprise/`	Service	`contenu/07-abonnement-fleurs-entreprise.md`	PACA + IDF	delivered
`/location-plantes-evenementiel/`	Service	`contenu/08-location-plantes-evenementiel.md`	PACA + IDF	delivered
`/fleurs-sapins-noel/`	Service	`contenu/09-fleurs-sapins-noel.md`	PACA + IDF	delivered

2c. Outdoor services (parent: `/espaces-verts-entreprise/`, PACA only)

URL	Template	Content file	Area	Status
`/entretien-espaces-verts-copropriete/`	Service	`contenu/18a-espaces-verts-copropriete.md`	PACA	pending
`/creation-amenagement-espaces-verts/`	Service	`contenu/18b-creation-espaces-verts.md`	PACA	pending
`/elagage-entreprise-marseille-aix/`	Service	`contenu/18c-elagage.md`	PACA	pending
`/terrasses-vegetalisees-entreprise/`	Service	`contenu/18d-terrasses-vegetalisees.md`	PACA	pending
`/ruches-entreprise/`	Service	`contenu/19-ruches.md`	PACA	pending

These 6 pages (hub + 5) carry a **banner below the H1 reading « Interventions en Provence-Alpes-Côte d'Azur »** and a `Service` JSON-LD whose `areaServed` contains PACA only. They are **never linked from the Paris page** nor from the SEA landing page.

2d. City pages and multi-site

URL	Template	Content file	Services shown	Status
`/location-entretien-plantes-bureau-paris/`	City	`contenu/10-agence-paris.md`	indoor only	delivered (block « Qui intervient à Paris » is blocking)
`/entretien-location-plantes-nice/`	City	`contenu/11-agence-nice.md`	indoor + links to the outdoor hub	delivered
`/entretien-location-plantes-marseille/`	City	`contenu/12-agence-marseille.md`	indoor + links to the outdoor hub	delivered
`/vegetalisation-bureaux-multisites-paris-paca/`	Service	`contenu/13-multisites.md`	indoor	delivered

The word "zone" is an internal shorthand: **it never appears to visitors** (menus, titles, H1, anchors, breadcrumb). Visitor-facing labels combine the service and the city, as provided in the content files: « Plantes pour bureaux à Paris », « Paysagiste à Marseille et en Provence ».

2e. Trust, contact, blog, legal

URL	Template	Content file	Status
`/qui-sommes-nous/`	Entity	`contenu/16-qui-sommes-nous.md`	delivered, updated 06/10 (commitments: electric transition, beehives)
`/faq/`	FAQ	`contenu/14-faq.md`	delivered
`/devis/`	Quote	`contenu/15-devis.md`	delivered
`/blog/`	Blog index	`contenu/blog/PLAN-EDITORIAL.md`	delivered (publishing mechanics: requirements §4)
`/mentions-legales/`	Legal	`contenu/90-mentions-legales.md`	delivered
`/politique-de-confidentialite/`	Legal	`contenu/91-confidentialite.md`	delivered
`/cookies/`	Legal	`contenu/92-cookies.md`	delivered
404	404	`contenu/93-404.md`	delivered

3. Templates to build (10)

Template	Pages	Specifics
Home	1	9 sections (order in `01-accueil.md`); seasonal Christmas banner from October to December
Hub	2	Direct answer, cards to child pages, method, FAQ
Service	13	Direct answer (130-170 words, plain text at the top), sections, "Réalisations" block (hidden while it contains `{{A_FOURNIR}}`), FAQ, CTA
City	3	H2 sub-sections per city or district; Paris has no outdoor link at all

Template	Pages	Specifics
Entity	1	History, team (`Person`), commitments, key figures only if verified
FAQ	1	13 questions in 3 groups, each answer linked to its service page
Quote	1	3-field form + pre-filled area, honeypot, rate limit, confirmation email
Blog index	1	Reverse chronological, future-dated posts excluded (page, listing, sitemap)
Legal	3	Plain text
404	1	Links to the hubs and the quote page

4. Navigation (labels in French, final)

Header: Accueil · Services (dropdown: Location de plantes, Entretien, Murs végétaux, Cadres stabilisés, Fleurs, Événementiel, Noël) · Extérieur PACA (dropdown: Espaces verts, Copropriétés, Création, Élagage, Terrasses, Ruches) · Nos villes (Paris, Nice, Marseille) · Multi-sites · Blog · FAQ · button **« Recevoir mon devis gratuit »**.

Fixed mobile bar (every page): [Devis] [Appeler].

Footer: entity sentence (identical everywhere, see `contenu/README.md`), Gémenos NAP, PACA and Île-de-France areas, service links, Qui sommes-nous, FAQ, Mentions légales, Politique de confidentialité, Cookies, Gestion des cookies.

Breadcrumb: Accueil › Hub › Service page. City, multi-site, entity, FAQ and quote pages: Accueil › Page.

5. Internal linking rules

- Every service page → its hub + 2 sibling pages + the relevant city pages (Paris excluded for outdoor pages).
- Every city page → the services it presents (Paris: indoor only; Nice and Marseille: indoor + outdoor hub).
- Every page → `/devis/` (button) and `tel:` (« Appeler » button).

6. What changed since the 01/10/2026 delivery

Change	Detail
+ 6 outdoor PACA pages	Hub `/espaces-verts-entreprise/` + 4 services + `/ruches-entreprise/` (content files 18, 18a-d, 19 pending)
New header menu « Extérieur PACA »	Between Services and Nos villes
Nice and Marseille	Now link to the outdoor hub; Paris stays indoor only
Qui sommes-nous	Commitments confirmed by the client: electric transition under way (all maintenance equipment is electric; never mention electric vehicles), corporate beehive sponsorship in PACA
Phase 2, do not build now	Dedicated city pages (Aix-en-Provence, Cannes, Toulon): decided after launch, on real data

7. Out of scope for this delivery

Blog posts are not part of this delivery: the 35 posts (`contenu/blog/NN-*.md`) and the Post template come in a later batch. Only the `/blog/` index and its publishing mechanics (requirements §4) are in scope now.

The **SEA landing page** (`contenu/17-landing-sea.md`) lives on a separate domain under a neutral name, with a single page and the same quote form. It presents indoor landscaping only and has no link to this site.
